

# Time traveling Mayhem

By: Anthony Monaco

# 1

## The mystery begins

In this story the evil villain lives in his moms basement. He doesn't have any money but he was good in science.

Pretty soon he got a nasty idea. I'll create a time machine and then steal artifacts. Well our villain was smart in science but not smart enough to know why this was a horrible idea. If he went back in time he could change the face of our planet. Once he was done with his time machine he used it several times. pretty soon he bought a mansion. The American spy force was curious. Our villain had covered the the time machine. So they didn't know how what was happening. A few days later they got a detection that somebody was time traveling. The boss of the company sent the spy's the coordinates. They rushed to the scene. And found something unexpected. Some-

body was buying gold in the gold rush. Right when they were about to get him he traveled back suddenly their boss joined them. I come to help on this case she said. The best way to capture this criminal. was to hide in his basement until he came back to get something from the past. They all fell asleep they woke up from step sounds. they rushed into action. He was just about to buy an Action Comics 1. They grabbed him and put him in hand cuffs. They had caught the evil villain. They identified him his name was Bob. They sent him to the slammer and had a party. The time traveling mystery was over!

# CASE CLOSED!

Hi am Anthony I am the author of this book. If you would like to see the meet the director for the movie click play above. I hope you enjoyed the book and go check out my movie at <http://vimeo.com/channels/discoverytech/> one of my favorite activities is fishing I live near Raleigh in Apex. Bye.
