INTRODUCTION

Are you ready for the awesomest book? I have one ready for you. Come and read this book. It is all about action, action and action! Think about reading this book twice because its awesome!

How Super Kid Got His Powers

Before Super Kid got his power his mom got sick while she was pregnant. Her husband had to find the smallest rock and boil it.

In this family tradition they boil the rocks because they believe that helps when you are sick.

What they didn't know is that was a very special rock called a rock- a- licious. It is very rare, it shiny blue with dark blue stripes.

If you are a baby and you smell the air of a boiling rock, you are going to get a super power. So the baby in the mother's stomach made a really special move that the mother knew - It is not going to be an ordinary baby. The dad made a belt that would give the baby more powers than the rock-a-licios

How Super Kid Became A Superhero

One day Super Kid's owners on Earth asked Super Kid to sweep the mess he made when the explosion happened on Earth. He was only a baby then. Super Kid got the broom and swept the place in 1 minute. Unlike any other kid they would have taken a few days. After he swept he went home. Home was a long way from where he swept so he began thinking how he swept the place in 1 minute. As he was thinking he remembered that he was born on Mars.

When Super Kid burst into his house, his father asked how he swept so fast. Super Kid explained that he was born on Mars, how his planet got destroyed and how he got sent to Earth. The kids thought he was a Superhero and then word spread out.

Super Kid pretended to be a superhero with the kids by the kids making a dummy villain and him destroying the dummy and soon everyone believed that he was Earth's superhero. He had fooled the other people. Super Kid saw a shooting star and wished he could actually be a superhero saving the world one day. That wish will come true later.
