WILLOW'S FAMILY

- 1. She had exactly 16 people in her family.**
- 2. She had only 2 girlfriends, Mom, and her best friend Ivy.**
- 3. Her dad died on a business trip to Detroit.**

Willow Woman was a baby when she got her power. But before that she was a ordinary 1 year old, she had a wonderful family. Her mom's name is Emily, sadly her dad died in a plane crash before she could meet him, her eldest brother is 9 his name is Ren, her last brother's name is Michael he is 7. If you turn right off of Mill Barry Road 3 miles down you'll be on Lip Laper Lane that is the Lane that Willow lives on 1334 is the house number on her door. She lives in a nice town far far away.

Willow had not many friends but she doesn't care. She has her family and that is good enough for her. It doesn't matter that there are no other girls in her family she has family and it is a great friendly family.

Willow thinks about her dad every day for hours and hours wondering where she would be if he was there with her. Sometimes she looks at pictures. She wondered if her mother, brother, or other brother were sad still, for they would tell and teach her things about her father. She never cared about herself, first everyone else has to be happy then she could be happy. She was very much of a people pleaser, until she got her powers she realized that she needs to be happy too. So you see she was very friendly girl, nice and a 100% thankful.

Getting her powers

ABOUT THE POWERS

- 1. The rock was destroyed in a fire so now one can get a power by accident.**
- 2. the rock only worked on special people who deserve a power.**
- 3. The rock was placed there by her father to show her that she will make a difference in the world.**
- 4. Her dad knew a super hero who had that rock to give to him.**

Willow was about 1 year old when she got her power. But before she got her power, she had an amazing talent, she was as swift and quiet as a leaf in the wind. Also she can bend into shapes unimaginable.

She came outside on a beautiful spring day it was the kind of day you could not stay inside you just had to go outside to play. As you know she only had her mom and her friend Ivy to have girl fun with, and her mom had to do the dishes so she went to Ivy's house to ask her to play.

Unfortunately she had a problem, her dad was leaving to a new job in New York so she couldn't play she had to take him to the airport. She was sad she couldn't play with a girl on that beautiful day. She then went back home and played in the yard. All of a sudden she saw a rock she was very surprised because the rock was a special rock with rainbow colors. She thought it was worth a try to wish she said, "I wish I could make someone play with me." But sadly it does not work that way. It gives you a power to have forever not a wish.

Now, the rock thought the word "make" made her want the power to control people's thoughts and actions so it gave it to her that power. The next morning she asked her mom to get her breakfast, which she never does and she did! She was so surprised she nearly fell off her chair onto the cold hard ground! She did not tell anyone, but her dad. That afternoon she made a small alcove in the attic

with all the pictures she could find of her dad big and small. Then she got her favorite rag doll that her dad made before she was born. Surprisingly she smelled the doll and relaxed, this was because it smelled like dad. Little did she know the powers would make her a great super hero.

The Villan

THE VILLAIN

1. The villain strikes again but this time he is threatening the trees in the park

Willow Woman had a special villain named “Axe Man” . Kind of like Bat Man and the Joker. You always see them together in books and movies. Well, when Willow was older 9 years old that is, she had learned quite a lot about her dad. One thing she learned was that he loved nature and he had a strong relationship to nature, some of you readers may have already understood that if anyone was mean to nature they were mean to her. But Axe Man just hates nature. Here are things he does: cuts down trees, weeds meadows so no flowers grow, and he just is mean to everyone. So when Willow found out about Axe Man she got so mad. She saw pictures of him in the newspaper. But instead of getting mad, she went to walk in the woods because that always cheers her up and calms her down.

All of a sudden she saw a man running through the green woods, he was dodging branches and jumping over logs. Then he stopped running and Willow saw that he was the Axe Man. Now, the Axe Man is a robber as well not only a Nature hater.

Willow, instead of panicking she walked up to him and said, “Hey Mr., what are you doing?” and he said “You are not suppose to be my friend your suppose to be afraid me.” So Willow was out of ideas so she said a riddle

There are four girls and four apples in a basket. Each girl had an apple, but there is one apple left in the basket. How did it happen?

Axe Man was stumped, but this was the plan. While he was thinking Willow pulled out her hair ribbon and said, "Let me do a thinking trick." Then she tied his hand around his back with a ribbon and she took him to her house to call the police so they could take the money that he stole from a family. She helped the family get their life savings back and that was the end of Axe Man.

Meet the author

Meet The Author

Hi, I am the Author Marie Cox. I hope you liked the book. I wrote the book and dedicated it to Discovery Tech because they inspired me to write a story like this. Thanks Ms. Sonja. I made her father passed away because my father passed away when I was nine. I made the main villain character a nature hater because I wanted to show there are people out out in the world that might destroy nature and I made him a villain because it is bad to destroy nature. Thank you for reading my book you might want to check out my movie.
