## Black Bandit before life

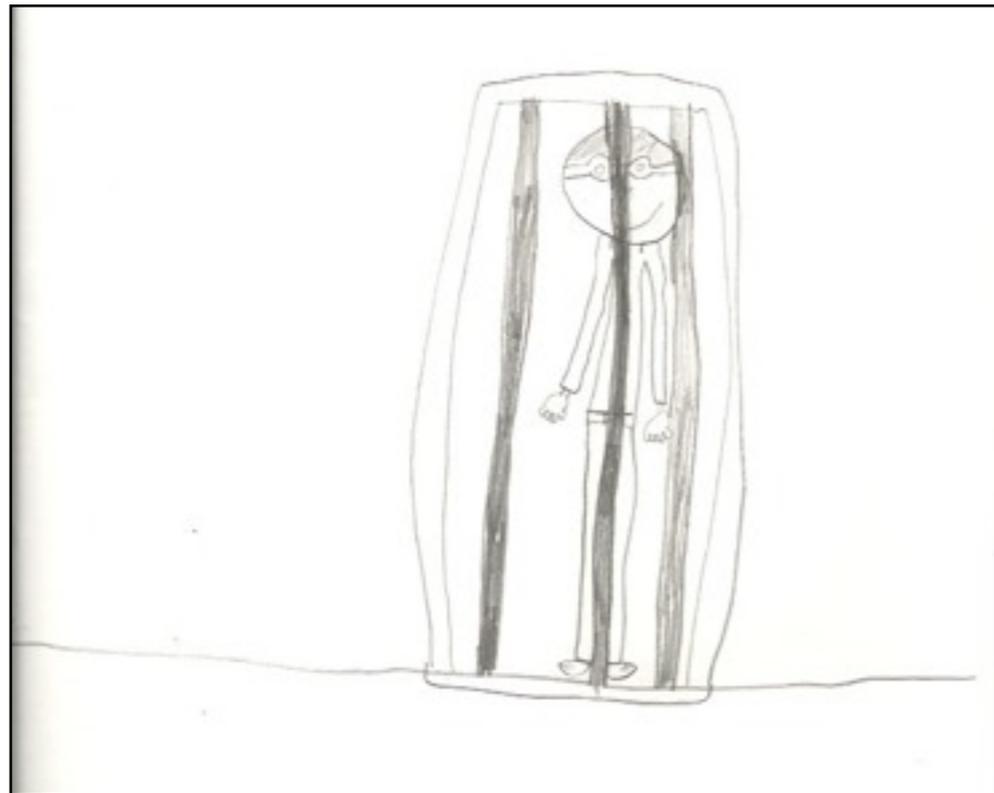

Black Bandit was a thief before he was a superhero. He stole all kinds of things. Sometimes priceless things, or solid gold, or silver. He enjoyed stealing things that were very important, not things that did not bring a lot of attention, so people would notice him. He stole things like diamonds and paintings real Michelangelo's. He hid in the shadows while he stole and walked right in front of the police and they did not notice him. He really needed money for living, since he was very

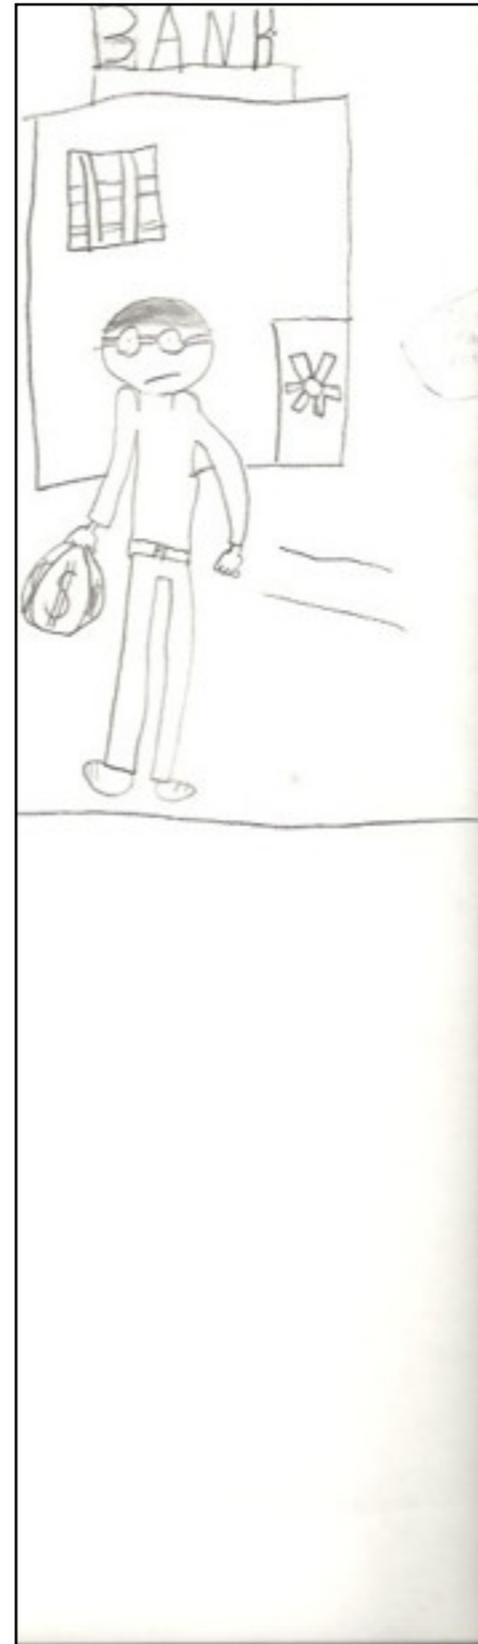

poor. He hit the most popular places in the city and then moved to a new one. That's how she stole. Black Bandit was born with his power, his parents were superheroes. He did not have many friends when he was growing up. He stole for the first time when he was 9. It was a 13 carat gold ring he needed the money and that's why he steals. He went to jail when he 19 for 5 years. When he got out he had decided he wanted to be a superhero. He had to go to jail for 5 years because

they did not know he did a lot of other crimes. And that is his back story.

Black Bandit had his power when he was born he figured out he had a power when he was 7. He and his parents thought it was really cool because now he could follow in the family business but his friends thought it was creepy, so he had no friends. This made him feel bad so he did not pay attention to anyone but himself. He became self reliant he did not need his parents so he did not talk to them. He felt confident like he could do anything and that's when he robbed for the first time and did not tell anyone. He was 9 at that time. He developed a way to steal when he moved out at 18 then he went to jail the next year. When he steals he wears a home-made mask and all black. After going to jail he had thought long and

hard

that he wanted to be a good guy and that's how he figured out. His one and only power is he can fly. It helps him with crime fighting so he can get a better view of things and when he catches the thief it makes a faster ride to the police station!

One super villain that Black bandit faced head to head, is a robber that is called Blue Robber. He is called that because he robbed when the sky is blue. It took a long time to catch him and multiple times to jail. When Black Bandit tired to catch him it was very hard because it made him tired. Let me tell you the story the first crime robber did was rob a bank he went to jail because Black bandit caught him.

He thought it was just a days work and then he found out he did not to get to jail so he had to fly to find him because Blue robber hid. He thought it was strange that he hid. When he found him he was at a old ware house on backfield lane it hadn't been used for years.

Black Bandit Thought this was a

weird place to hide but he went down and caught him with stolen property. But this time Blue Robber did not give up. This made Black Bandit a little scared. But not much! He fought on Blue Robber got tired eventually Black Bandit caught him and served him justice. Black Bandit felt relived when he got Blue Robber and this

time brought him to jail he could feel the sweat dripping down his face. He could hear the thoughts swirling down and around his head he did his part and he was ready for the next villain.
