tanishka and mom and dad*

This is a picture of the plane and the people in it.

SAVING THE CRASHING PLANE

One day a plane was going in the air and a large wave pushed the plane into the water. Crash! Boom! All the people landed in the water when the plane crashed into the water. Everyone was shouting “Help!” “Help!”

Then the police came to the rescue. They went to the police department and the police did CPR on them.

• CHAPTER 2 •

THE NEXT DAY

The next day the plane got repaired. The people were in the hospital getting help. When they were done, the airplane was still being repaired, so they had to take the next flight. And the flight took them to the wrong place. They were very upset. “Uh Oh!” They saw a big river and saw another plane getting ready to crash. But the plane had a tack. The pilot threw

the tack to the dart and the tack brought the dart and the pilot activated the plane wheels and then the pilot threw the dart onto the plane wheels and then the plane stopped. The passengers said “Whew! That was close!”

The pilot took off the dart and put it back into the dart set. Then he backed up the plane. And then he picked up the passengers that got in the wrong place. They said “Hurray!!! We made it! Thank you!”

The pilot saved the plane!

THE MONDAY

Then the plane that they made it to went to their home. But actually it looked like their home, but the plane dropped one person on one side and the other person on the other side. And he dropped one person in the water. So the person who was in the water needed to be rescued. And the man that was dropped on the other side of the land had to run fast.

But the person who was dropped on the other side of the land who didn't need to run was in the perfect spot. And then the person on the perfect side helped the person in the water, and brought the person who needed a long running journey. Then they thought that they were not home yet. So they found out the plane they needed. And that plane was the fastest plane on the ground. sr71 Blackbird.

This is a picture of the person who was in the right place rescuing the person in the water.

THE RESCUE

The police and the ambulance came to rescue all of the people. They put them on beds. The old hospital was not working, so they were building a new one. By that time, they were sitting in the ambulance. Then, the plane got repaired and the hospital was almost done. The police got a new boat and his police van was on the boat. The boat was huge and had engines

in the front. The boat came to pick up a person to take them to the old hospital because they needed CPR. He did CPR to get air. Then the boat picked up more people to take them to the old hospital. And the people got better. So the boat went back to the police dock.

This is a picture of the boat that helped rescue the people and take them to the old hospital.

Himey went into the ambulance and the ambulance took him to the hospital. And he got better. Then the plane was being repaired and everyone was being helped.

Hi my name is Anay and I am the author of this book. I am 5 years old and like star wars and my favorite book is tap tap bang bang. What do you like? I live in North Carolina with my parents. I hope that you enjoy this book. Bye! Listen to other books again by: Anay.
