# Girls in the boat

Julie and Kate wanted to go in the ocean so they went on an adventure. They went in a boat house. It had a pool and window and a TV. They shared a bed. There was a diving board, too. They were having so much fun. The only problem they had was that they were running out of food. So they decided to try to catch some fish.

# boat house continued

They found two strings and a stick to use as a rod to catch fish. They had a flat surface to stand on to throw out their fishing rods.

The girls caught one catfish at first. Then they caught a medium-sized catfish. The idea was to cook it for dinner, but they didn't have any water. Then they got some water and started a fire. Then they put the catfish over the fire. After the catfish was fully cooked they ate it for dinner. They loved the catfish and thought it was super yummy! They were proud of all their hard work and wanted to catch more! The next day they had so much fun they wanted to stay on the boat for three days. Julie and Kate were having so much fun. they was so happy.and prad.

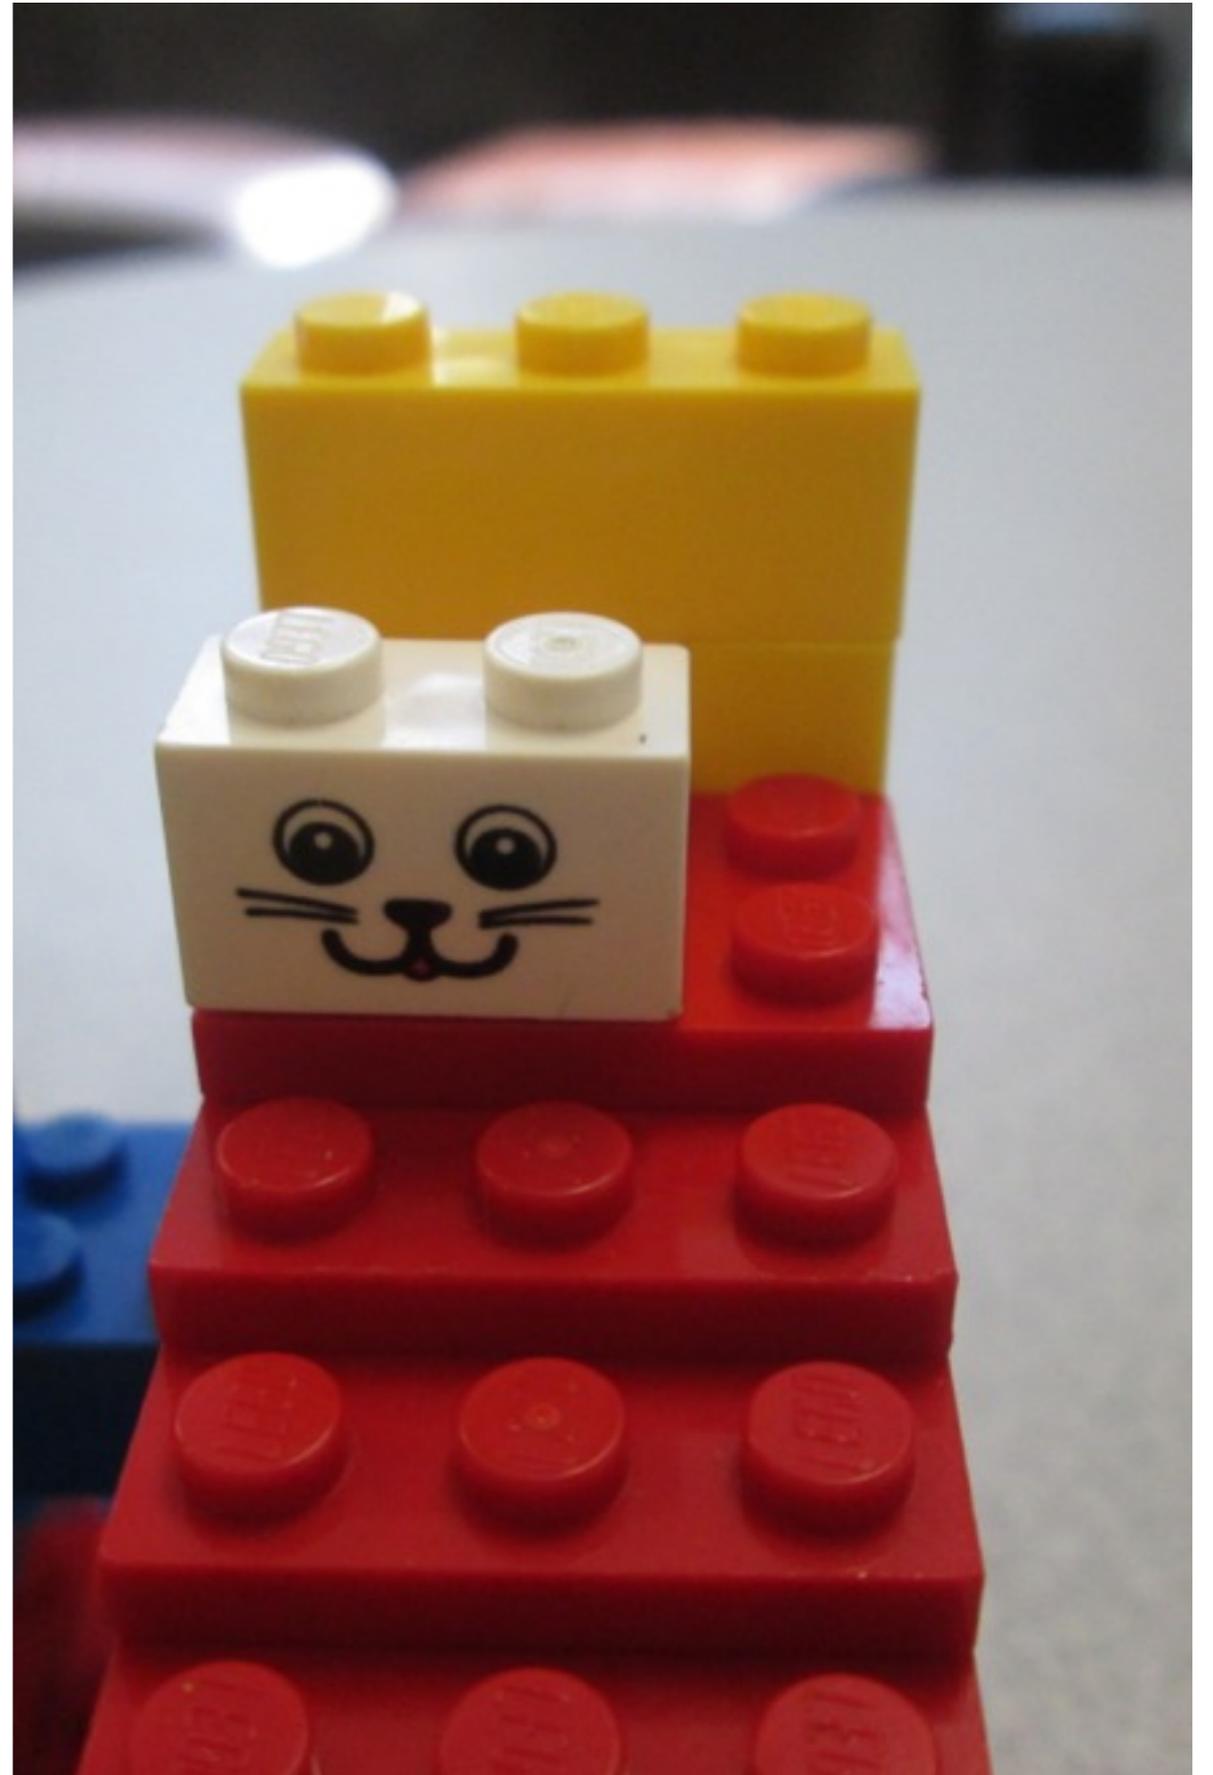

# Fishing

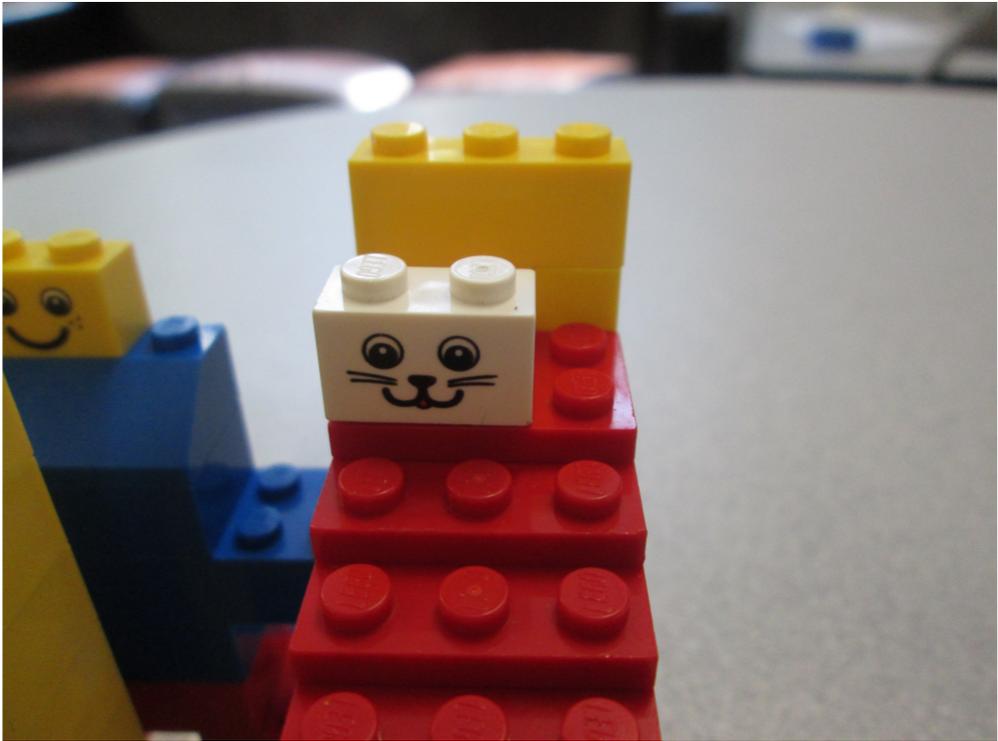

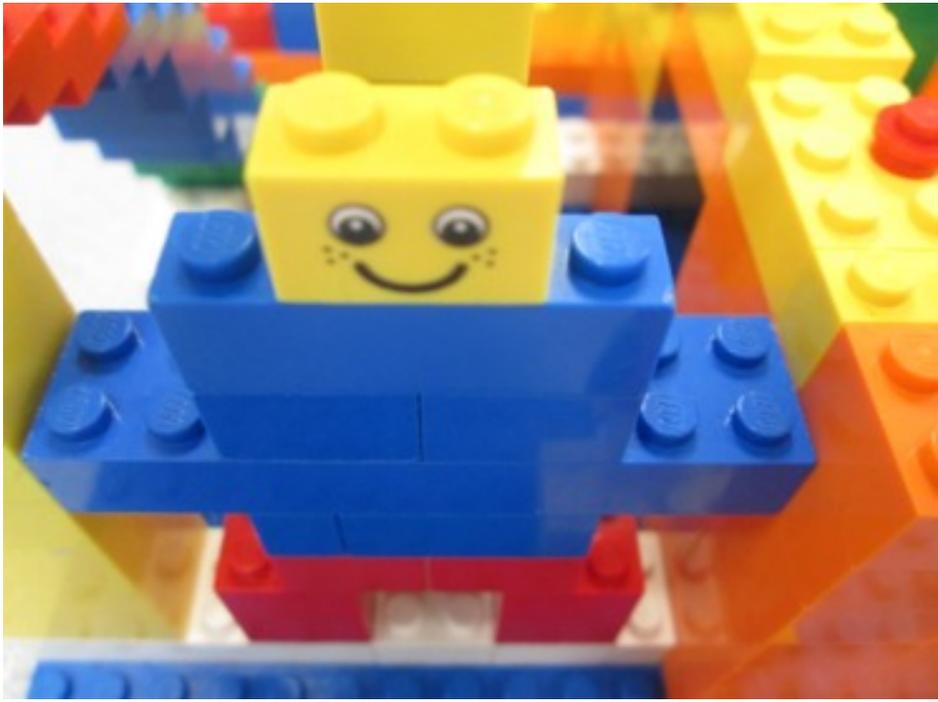

Julie and Kate was so tired they decided to take a nap. Julie said, "I DO", but Kate said no. Kate wanted to go fishing so they got in a big argument. Since they couldn't agree, they just sat in their chairs.

# New Cat

Julia and Kate bought a cat. They named the cat Rachel. Rachel loved to go on slide and do the monkey bars. But her favorite thing was to play with yarn. Rachel always wanted to have water and food like all cats do. And they didn't have food. They still had water. There was a robot that was a dog robot. Water splashed on the dog robot and it broke down.

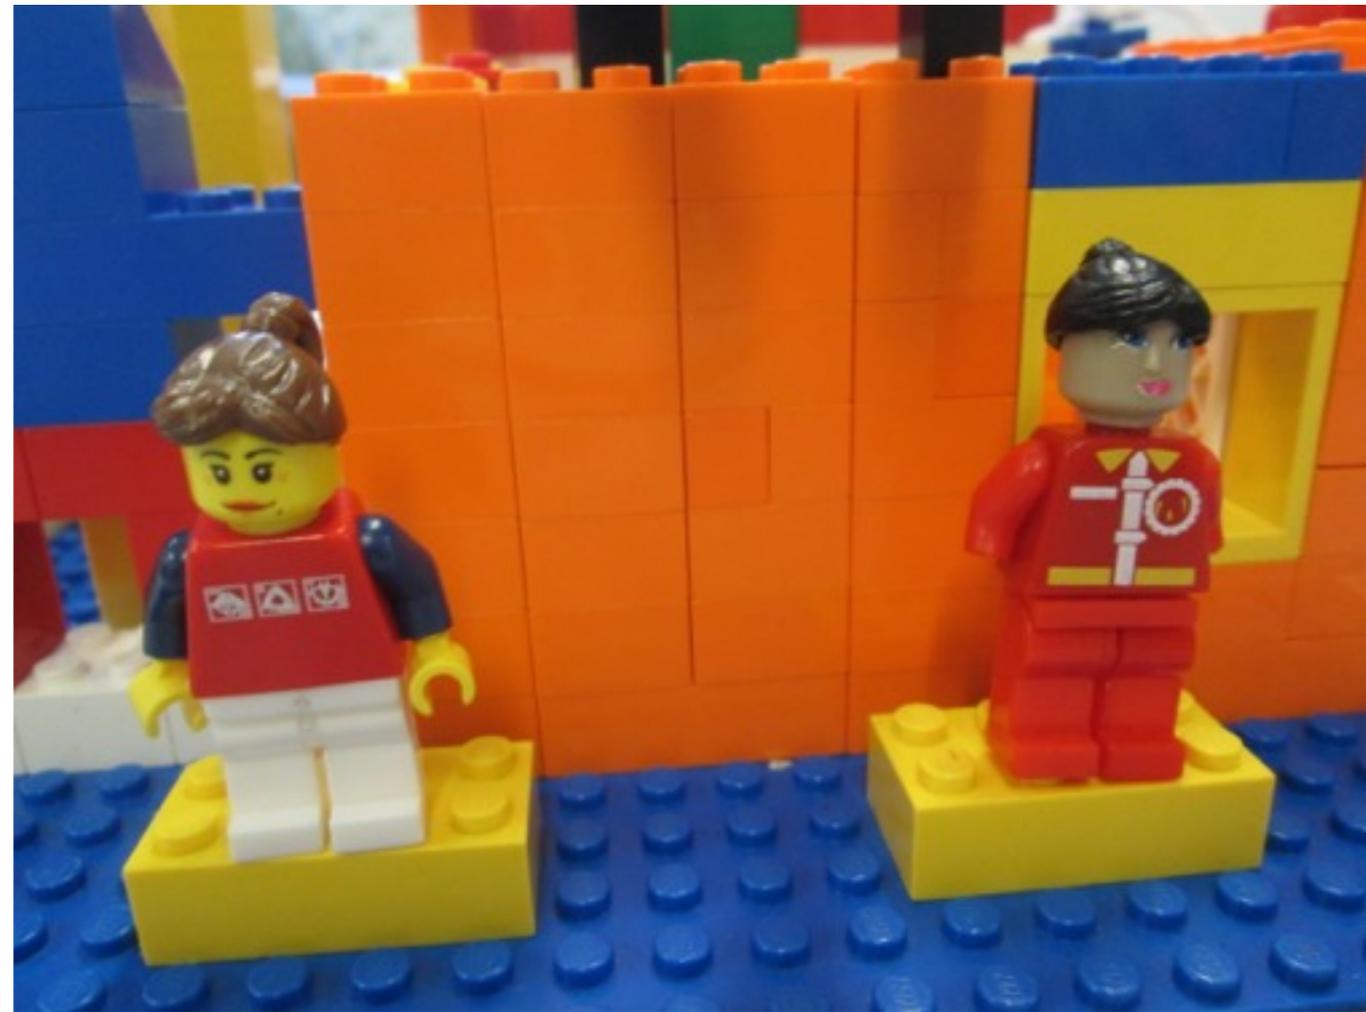

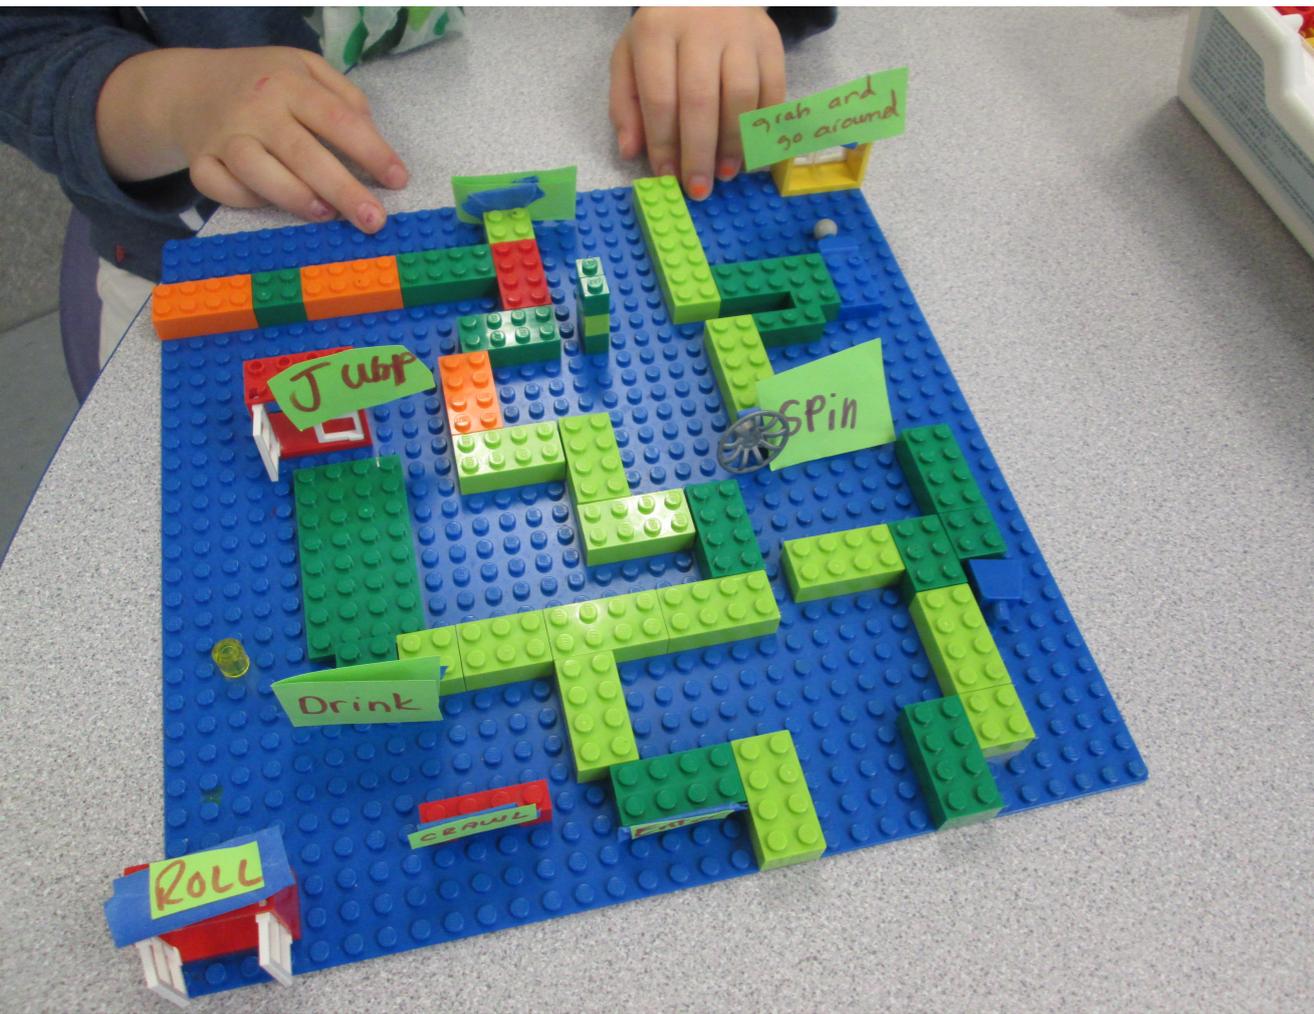

there was an explosion on the boat, so they had to jump in the water. The dog robot pieces went flying when the explosion happened.

They got back on the boat and they sailed back to land. They wanted to get back, so they turned the ship around and went back. Then they went surfing.
