This book is dedicated to my mom and dad who helped me learn.

• CHAPTER 1 •

MEET LUCIA

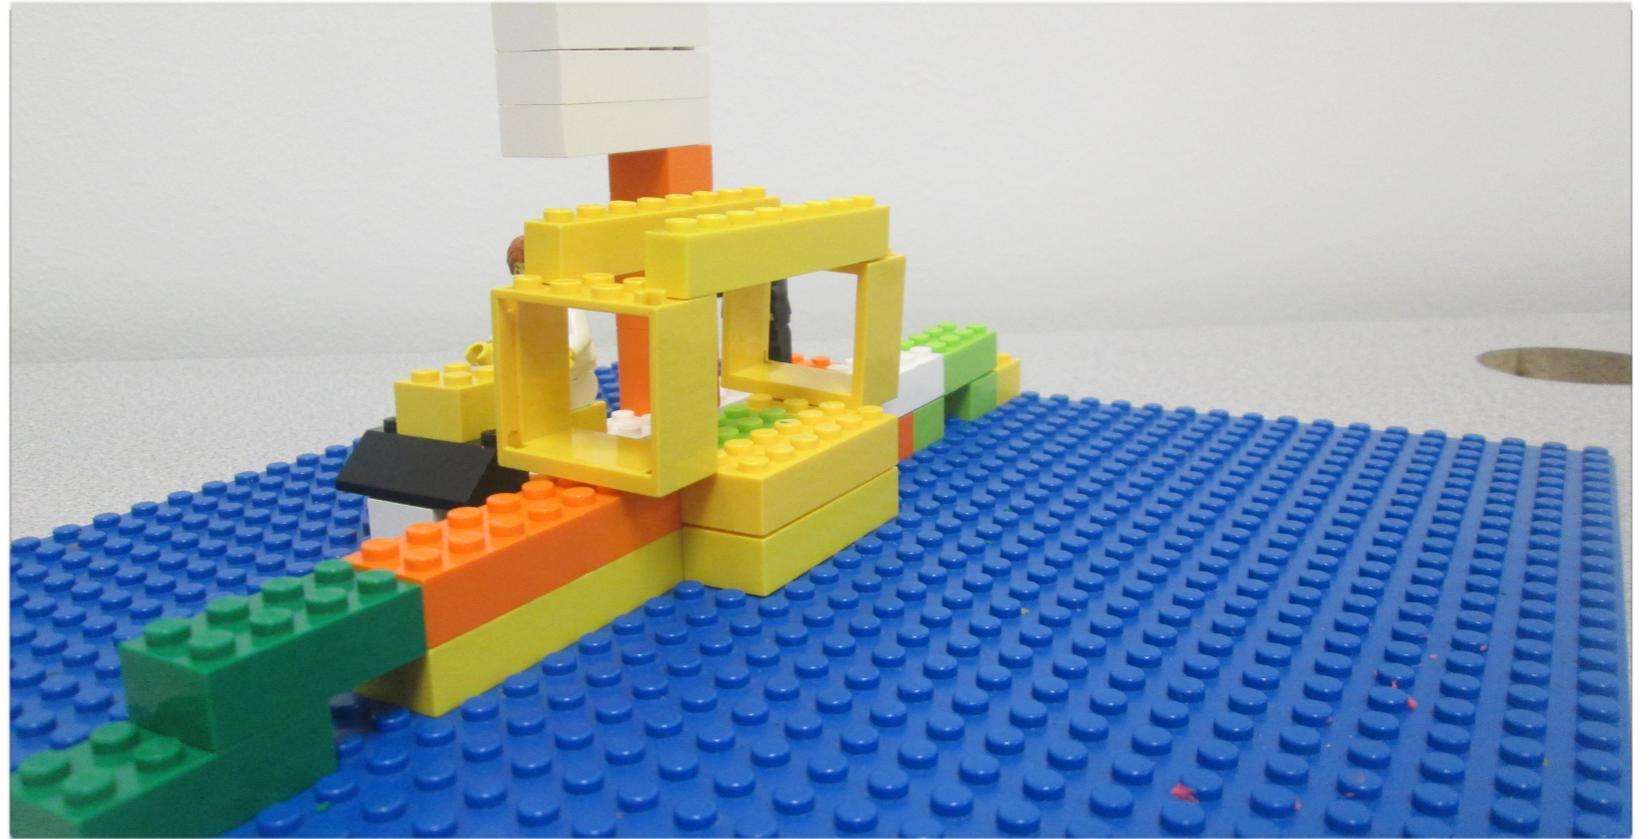

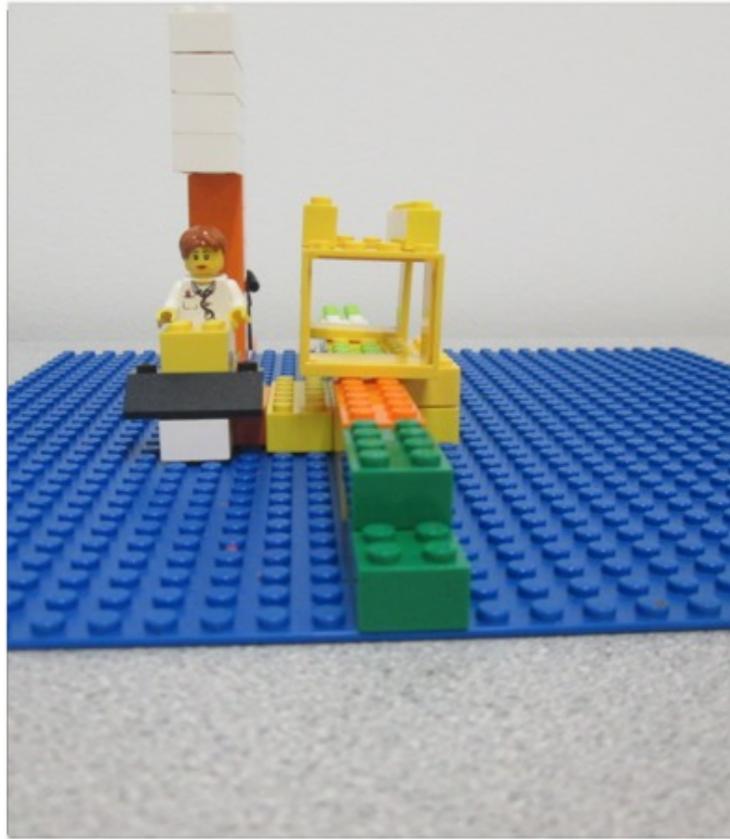

There once was a little girl named Lucia who loved soccer and she was on a team. Her Dad was the coach. The team's name was the Elafeants. One day the soccer ball was stolen. Lucia wanted to solve the mystery.

The whole team was looking everywhere to find the ball. Lucia wandered off.

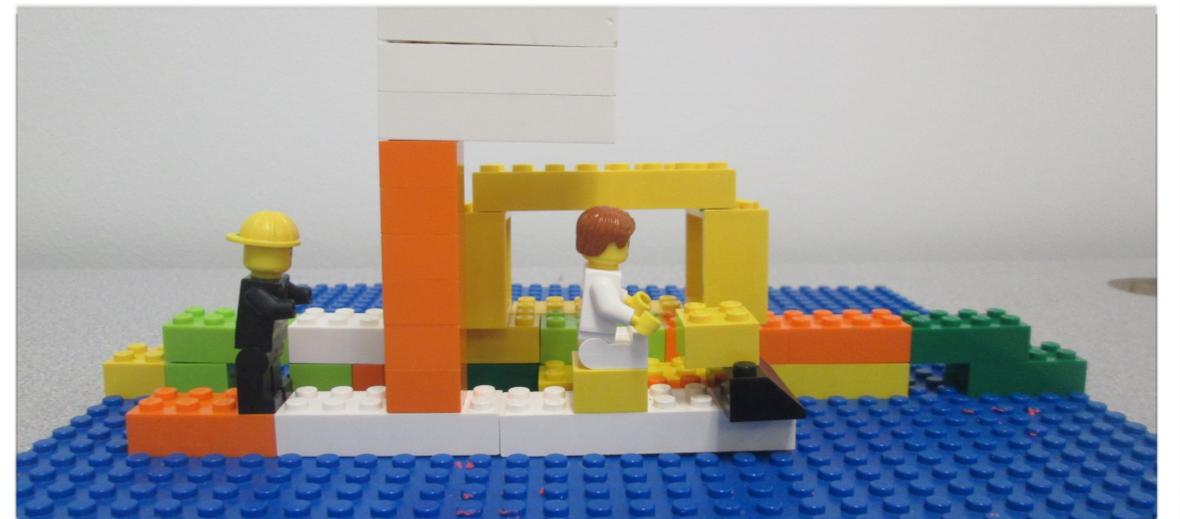

Lucia looked and looked.... Finally, she found it. Her little brother, Mateo took it. He wanted to play with his friends. When Lucia found it she said loud, "Now, give it back, game over!" Please! We got a game in 5 minutes!" And he did.

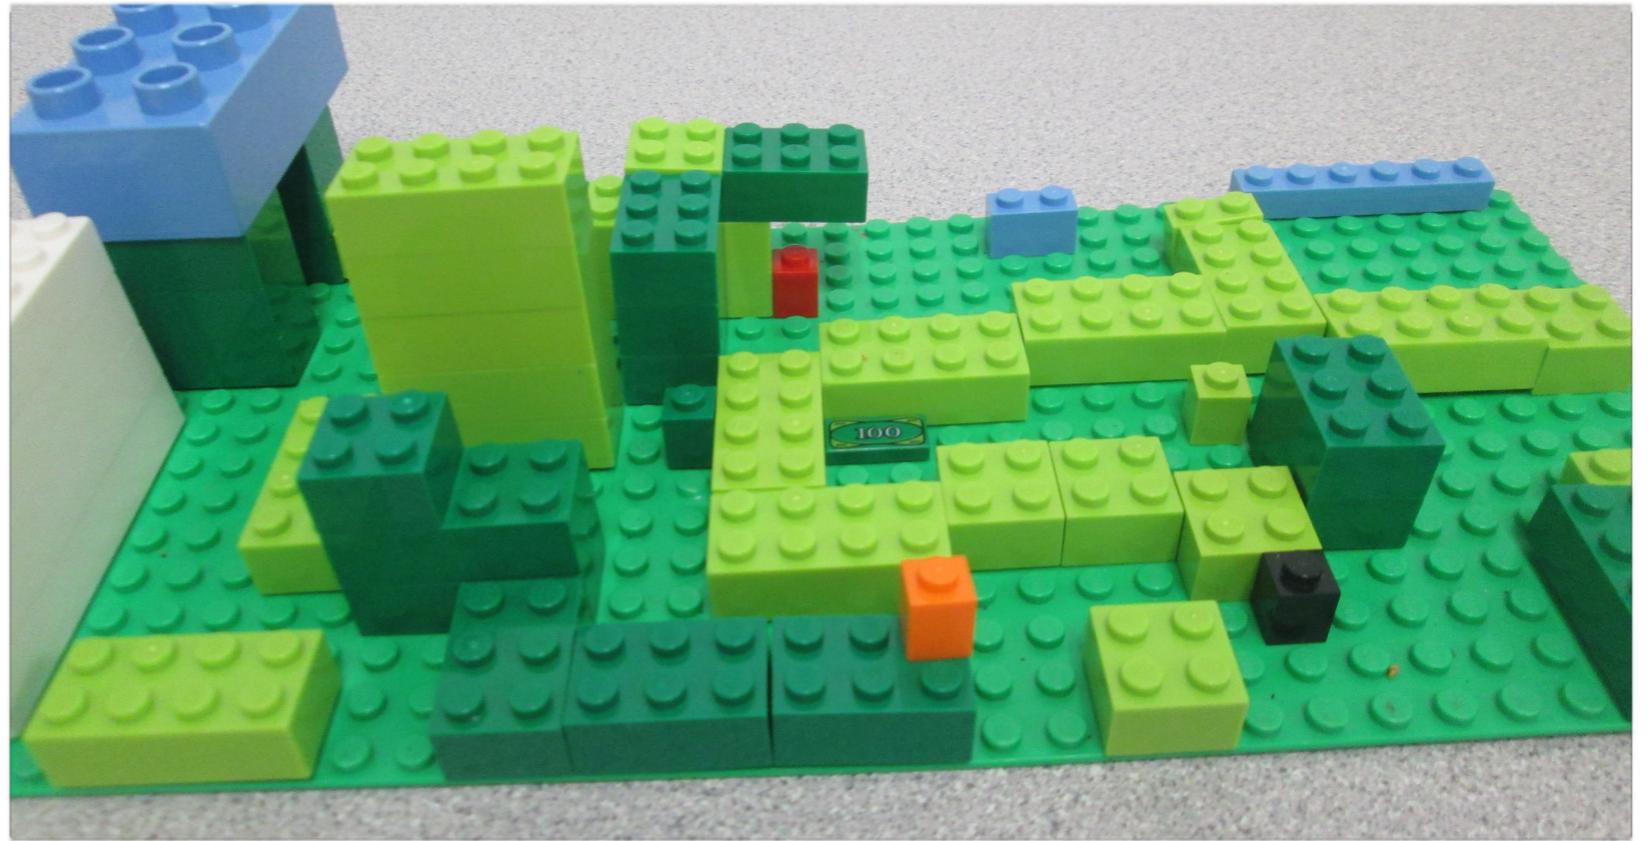

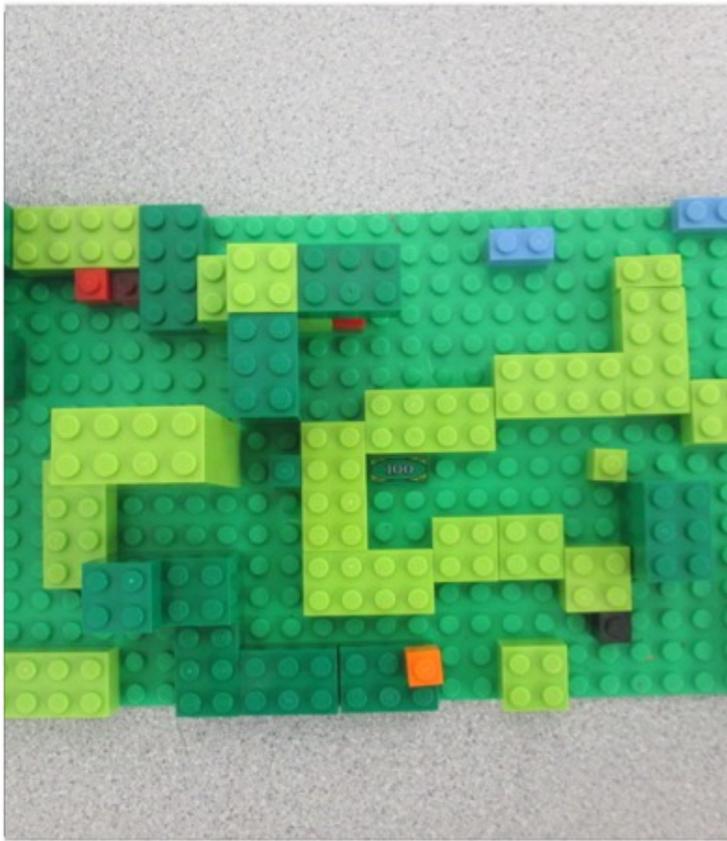

THE BRIDGE

Lucia came back and told the whole team that they could do a soccer club where they build with legos. They were also practicing soccer. The first lego challenge was to build the bridge over a soccer field. This is Lucia's bridge.

THE SOCCER MAZE

They threw a festival because the government said it was okay and there was a maze there. There were clues left in the maze, but only the dark ones were right. The bright ones were wrong. There was treasure in the middle and people had to get it without getting lost inside. It was really fun and they lived happily ever. The End.

MEET THE AUTHOR

Hi, my name is Lucia and I wrote eight books so far. I like to have fun and I love to garden. I have three older cousins and two younger ones. I hope you enjoy the book!
